

BioDiagnostics, Inc. Hires New Standard Seed Testing Lab Supervisor

DaNell Jamieson, RST, CGT

River Falls, Wisconsin (September 16, 2008) – BioDiagnostics, Inc. announces the addition of DaNell Jamieson as Standard Seed Laboratory Supervisor. She is a Registered Seed Technologist (RST) and a Certified Genetic Technologist (CGT) in PCR. She brings 10 years of management experience in a Quality Testing Laboratory. DaNell will oversee all aspects of testing to ensure that test results are reported in a timely fashion and will consult with customers regarding their test results. DaNell holds a Master of Business Administration from Aurora University, Illinois, with focused course work in Agriculture Business and also has a Bachelor of Science degree in Agronomy from the University of Minnesota, St. Paul, MN.
