

River Falls, Wisconsin (March 30, 2009) - BioDiagnostics (BDI) was the top fundraising group for the local Relay for Life event. This year the dollar totaled just over \$18,000.00! The 15 member team of BDI employees raises money throughout the year for this incredible cause. Owners Quentin and Marilyn Schultz, along with their business partners Denise Thiede and Craig Nelson match the dollar amount raised by the team. BDI's team is supported by many of their vendors and colleagues. We thank you for that!
